EDUCATION

Vidya Jyothi Institute Of Technology

Bachelor of Technology in Computer Science(Data Science) — CGPA: 9.33

Aziznagar, Telangana

2024 – 2028

TECHNICAL SKILLS

Languages: Java, Python, C, JavaScript

Web Technologies: HTML, CSS

Concepts: Object-Oriented Programming (OOP), Data Structures & Algorithms, DBMS

Developer Tools: VS Code, IntelliJ IDEA, Git, GitHub, MySQL, Tableau

PROJECTS

Online Voting System | Java, Java Swing, File Handling

- Developed a complete online voting system using Java Swing with separate admin and voter functionalities.
- Implemented election management features including candidate handling, vote tracking, and one-vote-per-user validation.
- Used Java file handling and serialization for persistent storage of voting data and results.

Amazon Homepage Clone | HTML, CSS

- Developed a frontend clone of the Amazon homepage using HTML and CSS.
- Designed responsive webpage sections including navbar, hero section, product cards, and footer layout.
- Improved understanding of webpage structuring, styling, and UI layout design concepts.

Tic-Tac-Toe Game | JavaScript, HTML, CSS

- Developed an interactive browser-based Tic-Tac-Toe game using JavaScript.
- Implemented winner detection, game reset functionality, and dynamic user interaction handling.

Rock Paper Scissors Game | JavaScript, HTML, CSS

- Built an interactive Rock Paper Scissors game with score tracking and result display functionality.
- Improved understanding of DOM manipulation and event handling concepts using JavaScript.

Currency Converter | JavaScript, HTML, CSS

- Developed a currency converter application with country-based currency selection functionality.
- Integrated exchange rate and flag display concepts using JavaScript and API-based data handling.

VIRTUAL INTERNSHIPS & EXPERIENCE

Google Android Developer Virtual Internship | EduSkills

- Completed virtual internship modules focused on Android development fundamentals and developer workflows.

JPMC Software Engineering Virtual Experience | Forage

- Gained exposure to software engineering workflows and development practices through simulation tasks.

Deloitte Australia Data Analytics Virtual Experience | Forage

- Explored beginner-level analytics tasks and business problem-solving concepts.

PARTICIPATION & ACHIEVEMENTS

- Participated in Smart India Hackathon (SIH) collaborative problem-solving activities.
- Contributed to the “CRISIS SYNC AI” project as part of the Google Solution Challenge.
